On the Cauchy Problem  
for the Weakly Hyperbolic Equations

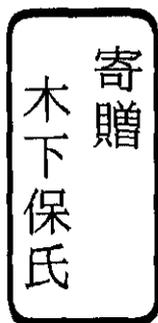

Tamotu KINOSHITA

THESIS

Submitted in partial fulfillment of the requirements for the degree of  
Doctor of Philosophy (Science) in the  
University of Tsukuba

January, 2000

# CONTENTS

PREFACE	3
ACKNOWLEDGEMENT	4
NOTATIONS	4
Chapter 1. Weakly Hyperbolic Equations of Third Order with Hölder Continuous Coefficients in Time	
1.1 Introduction	5
1.2 Preliminaries	7
1.3 Energy inequality in case of $k = 0$	8
1.4 Energy inequality in case of $k = 1$	11
1.5 Energy inequality in case of $k \geq 2$	13
1.6 Proof of Theorem 1.1	17
Chapter 2. Weakly Hyperbolic Systems with Hölder Continuous Coefficients in Time	
2.1 Introduction	19
2.2 Preliminaries	21
2.3 Proof of Theorem 2.1	27
2.4 Appendix	31
Chapter 3. Weakly Hyperbolic Equations of Third Order with Analytic Coefficients in Time	
3.1 Introduction	32
3.2 Preliminaries	34
3.3 Estimate of the energy	39
3.4 Energy inequality in case of $\alpha \leq \beta$	51
3.5 Energy inequality in case of $\alpha > \beta$	53
3.6 Proof of Theorem 3.1	55
