PREFACE

We are very pleased to present the 33rd volume of *Tsukuba English Studies*, a series of working papers which carries contributions by current and former graduate students at the University of Tsukuba. All contributors are members of the Tsukuba English Linguistic Society (TELS).

This volume contains papers on a variety of subjects in syntax, semantics, and pragmatics, reflecting the catholicity of our interests in linguistics. It also includes the summaries of the papers presented at the 34th annual meeting of the TELS, held at the University of Tsukuba in the autumn of 2013, and indexes of Volumes 1-32 of Tsukuba English Studies as an appendix. We hope that the works in this volume will prompt and stimulate fruitful discussion and contribute to further research in current linguistic theory.

We would like to thank the following people for their continuing and helpful assistance in our editorial work: Tatsuhiro Okubo, Wenwen Ding, Souma Mori, Ryohei Naya, and Masatoshi Honda.
