Taxonomic Study on the Order Kickxellales
(Zygomycetes, Zygomycota)

Yuko KURIHARA

A dissertation submitted to the Doctoral Program in Biological Sciences, the University of Tsukuba in partial fulfillment of the requirements for the degree of Doctor of Philosophy in Science

October 2002

(3) *Myconymphaea yatsukahoi* Kurihara, Degawa et Tokumasu 2001

(4) *Mycoemilia scoparia* (tentative name) 29
(5) *Ramicandelabra brevisporus* (tentative name) 31

2.4 DISCUSSION 33
2.4.1 Diversity and prevalence of the Kickxelliales 33
2.4.2 Geographic distribution of kickxellalean genera 33
2.4.3 Evaluation of feces as sources of the Kickxelliales 33

CHAPTER 3 Re-evaluation of Optical Microscopic Morphological Characteristics 35

3.1 INTRODUCTION 35

3.2 MATERIALS AND METHODS 35

3.3 RESULTS AND DISCUSSION 36
3.3.1 Asexual reproductive structures 36
(1) Coiling of sporangiophores/sporophores 36
(2) Distribution patterns of sporocladia 37
(3) Whether pseudophysialides or sporocladia are sporogeneous 37
(4) Whether sporocladia are septate or aseptate 38
(5) Whether a sporocladial cell generates a single or plural pseudophysialides 39
(6) Orientation of pseudophysialides 40
(7) Whether sporogeneous cells are monosporic or polysporic 40
(8) Whether asexual spores are sporangiospores or conidia 41
(9) Wet or dry nature of spores 41

3.3.2 Non-reproductive structures 42
(10) Rhizoids of sporangiophores/sporophores 42
(11) Lateral branches 43
(12) Connections between aerial hyphae 43

3.3.3 Sexual reproductive structures (zygosporangia) 44
(13) The process of the formation of zygospores (zygosporogenesis) 44
3.4 CONCLUSIONS

CHAPTER 4 A Grouping of the Kickxellales Based on Optical Microscopic Morphological Characteristics

4.1 INTRODUCTION

4.2 GROUPING METHODS
   4.2.1 Re-typification of sporocladia
   4.2.2 Selection of characters for grouping

4.3 RESULTS
   4.3.1 Types of sporocladia
      (a) The Coemansia type
      (b) The Myconymphae type
      (c) The Linderina type
      (d) The Spiromyces type
      (e) The Ramicandelaber type
   4.3.2 Groups of the genera
      (a) The Coemansia group
      (b) The Spiromyces group
      (c) The Ramicandelaber group

4.4 DISCUSSION

CHAPTER 5 Observations and Comparison of Septal Structures

5.1 INTRODUCTION

5.2 MATERIALS AND METHODS
APPENDIX: Keys to the Genera/Species of the Kickxellales sensu lato 75

(1) Key to the genera of the Kickxellales sensu lato 75
(2) Key to the species of the Spiromycetales (tentative name) 77
(3) Key to the species of the Ramicandelaberales (tentative name) 78
