

## Acknowledgments

The author would like to express his sincere gratitude to Professor K. Yatsu for his encouragement as well as important discussions and suggestions.

The author is deeply indebted to Professor T. Cho, Dr. M. Hirata and Dr. J. Kohagura for helpful discussions and valuable advice in the course of the present study.

The author wishes to express his appreciation to Professor S. Miyoshi, Professor T. Tamano, Professor Y. Morioka, Professor K. Ishii and Professor H. Hojo as well as members of the GAMMA 10 group for their collaboration.

This work was partly supported by a Grant-in-Aid for Scientific Research from the Ministry of Education, Culture, Sports, Science and Technology. The author was supported by Research Fellowships of the Japan Society for the Promotion of Science for Young Scientists.
