PREFACE

We are pleased to present this volume as the 39th in the series *Tsukuba English Studies* in this hard time affected by COVID-19 pandemic worldwide. All the review sessions were conducted online for this volume, which was made possible by the authors' and reviewers' sincere assistance and dedication. Without them, it would not have been able to make up this volume. We would like to express our deepest gratitude to all who contributed to the publication, especially the following people for their continuing and helpful assistance in our editorial work: Shohei Nagata, Kazuyoshi Ishikawa, Takuto Kimura, Haruka Shimura, Naoki Nakamura, Nana Odagiri, Hirofumi Sakai, Yuri Togano, Kasumi Yokoo, Yuki Okada, and Shin Tamura.

This volume contains papers on a variety of subjects in generative syntax, cognitive semantics, morphology, pragmatics, and second language acquisition, reflecting a wide range of our interests in linguistics. It also includes the summaries of the papers presented at the 40th annual conference of the Tsukuba English Linguistic Society, held at the University of Tsukuba in the winter of 2019, and indexes of Volumes 1-38 of *Tsukuba English Studies* as an appendix. The editors wish to thank the readers for their support and welcome suggestions about future directions the series might take.
