

TSUKUBA GEOENVIRONMENTAL SCIENCES

Volume 12, December 25 2016

For the Academic Year 2015

CONTENTS

Original Papers

- Yamashita, A.** Regional characteristics of water use system in the Ashida River Basin in terms of water supply and demand balance 1

Research Reports

- Zhang, X. and Murayama, Y.** Urban growth monitoring and prediction with remote sensing and GIS in Wuhan region, China 11
- Sugita, T., Kubota, A., Higuchi, M., Matsuno, A and Tanaka, H.** Continuous soil moisture monitoring under high salinity conditions by dielectric sensors: a reliability test 17
- Hattanji, T.** Suspended sediment transport in two headwater basins with different bedrock: A case study in the Ashio Mountains, Japan 23

- Organization and Activities of the Doctoral Program in Geoenvironmental Sciences** 29
- List of Publications** 39

Editorial Committee

Chief Editor	<i>Murayama, Y.</i> , Professor in Spatial Information Science
Associate Editors	<i>Hattanji, T.</i> , Assistant Professor in Geomorphology <i>Yamashita, A.</i> , Assistant Professor in Regional Geography
Editorial Board	<i>Kureha, M.</i> , Professor in Regional Geography <i>Matsuoka, N.</i> , Professor in Geomorphology <i>Sugita, M.</i> , Professor in Hydrological Science <i>Tanaka, H.</i> , Professor in Atmospheric Science <i>Yamashita, K.</i> , Professor in Human Geography
