UNIVERSITY OF TSUKUBA

Doctoral Program in Geoenvironmental Sciences

Graduate School of Life and Environmental Sciences

Editorial Committee

Chief Editor

Murayama, Y., Professor in Spatial Information Science

Associate Editors

Hattanji, T., Associate Professor in Geomorphology

Yamashita, A., Assistant Professor in Regional Geography

Editorial Board

Kureha, M., Professor in Regional Geography

Matsui, K., Professor in Human Geography

Matsuoka, N., Professor in Geomorphology

Sugita, M., Professor in Hydrological Science

Tanaka, H., Professor in Atmospheric Science

TSUKUBA GEOENVIRONMENTAL SCIENCES

Volume 14, December 27 2018

For the Academic Year 2017

CONTENTS

Original Papers

- Akasofu, S-I. and Tanaka, H.L.** On the natural component of climate change 1
- Ueno, K. and Yamada, H.** Modulation of diurnal precipitation occurrences observed
in the Tibetan Plateau during monsoon season of 1998..... 9
- Ranagalage, M. and Murayama, Y.** Measurement of urban built-up volume using remote
sensing data and geospatial techniques 19

Research Reports

- Fuse, T. and Ikeda, A.** Shape of sand particles transported by glaciers or through rock avalanches:
A preliminary trial for discriminating the origin of coarse deposits 31
- Wang, R. and Murayama, Y.** Spontaneous simulation of land surface temperature
in Tianjin city, China 37

Organization and Activities of the Doctoral Program in Geoenvironmental Sciences 45
