Nonprofit-Government Relations in the Washington, D.C. Metropolitan Area

Methodology Report

August 2010

Center on Nonprofits and Philanthropy

The Urban Institute

I. Survey Administration and Design

1. Background and Objectives

The Center on Nonprofits and Philanthropy at The Urban Institute conducted a survey for the University of Tsukuba in Japan on nonprofit-government relations in the Washington, D.C. metropolitan area. The study estimated the extent to which local nonprofits are represented in the public policy domains in the region. The study was modeled after a similar survey conducted in Seattle, WA. The Washington, D.C. study began in January, 2010 and ended in July, 2010.

2. Population and Sample

The survey was based on a stratified random sample of nonprofit organizations in the Washington, D.C. metropolitan area to ensure organizations of different sizes, types, and geographic locations were represented in the study. The Urban Institute's National Center for Charitable Statistics (NCCS) compiled the list of names, addresses, and when available, phone numbers and email addresses of organizations in the sample. The 2007 and 2008 NCCS "Core" files were used to draw the sample. These "Core" files contain all 501(c)(3) and 501(c)(4) public charities with gross receipts of \$25,000 or more that file the annual financial return (Form 990) with the U.S. Internal Revenue Service (IRS). The IRS is the U.S. government agency that regulates nonprofits. Only organizations that are considered "active" by the IRS were included in the study.

Like the study conducted in Seattle, WA, we excluded hospitals and higher education organizations from the master list because these organizations tend to be much larger and more complex structures than other types of nonprofits. We also excluded foundations (i.e., organizations that file form 990-PF), homeowner associations, and grant making foundations (classified as T2, T3, T7, and T9 under the NTEE taxonomy). The NCCS database identified 10,581 nonprofit organizations in the Washington, D.C. metropolitan area that file with the IRS and satisfy all of the selection criteria outlined above. The master list restrictions and exclusions were done to achieve comparability with the larger international study.

Although the NCCS database under-represents small nonprofits, time and budget constraints did not allow us to supplement it with local lists that might contain smaller organizations. However, any attempt to supplement the NCCS list is likely to be incomplete, and we would lose our ability to generalize to the broader population. Therefore, it was decided that the best sampling strategy was to use the NCCS dataset as our sampling frame. This enabled us to generalize to the full population of nonprofits in the Washington, D.C. metropolitan area with the caveat that some smaller groups may be missing.

For this study, a total of 3,300 organizations were randomly selected. To ensure a representative random sample, we stratified the NCCS list by region, size of organization, and type of nonprofit prior to selecting the sample. In addition, because of the smaller number of nonprofits classified as 501(c)(4) organizations, we over-sampled the 501(c)(4) organizations to ensure that these can be analyzed separately.

To maximize the number of respondents, we contacted organizations through mail, email, and phone. This strategy was designed to stretch our resources and ensure a good response rate. The participation of organizations was voluntary. Table 1 shows the sample breakdown by region, organization type, expenditure size, and IRS 501(c) status.

Table 1: Sample Breakdown by Region, Type, Expense, and Status

Region	Number	Percent
District of Columbia (DC)	1,332	40%
Maryland (MD)	801	24%
Virginia (VA)	1,167	35%
Total	3,300	100%

Type	Number	Percent
Arts	320	10%
Education	544	16%
Health	322	10%
Human Services	891	27%

Total	3,300	100%

Expense Size	Number	Percent
Small	1,198	36%
Medium	1,278	39%
Large	824	25%
Total	3,300	100%

Status	Number	Percent
501(c)(3)	2,600	79%
501(c)(4)	700	21%
Total	3,300	100%

3. Questionnaire Design

The Urban Institute research team worked with the Seattle study's principal investigators, Robert Pekkanen and Steven Rathgeb Smith, to finalize and format the survey instrument. The questionnaire was divided into five sections: 1) basic information about the organization, 2)

information about the organization's members, 3) how the nonprofit interacts with other organizations and groups, 4) information about the organization's involvement in affecting public policy, and 5) the organization's leadership and finances.

The questionnaire was designed to be administered by mail and web. Only one response was collected over the telephone. The paper version was 12 pages long. It was printed on letter-size paper. Depending on the questions answered and the skip patterns, the online version contained as many as 42 screens, which included an introduction page and a survey submission page.

II. Survey Implementation and Procedures

1. Human Subjects Research Review

The Center on Nonprofits and Philanthropy submitted a request to the Urban Institute's Institutional Review Board (IRB) for review of human subjects' procedures and compliance with federal regulations for human subject research. The request was approved on February 4, 2010.

2. Data Collection

Contact Procedures. The first contact was an advance letter sent to all 3,300 organizations in the sample. The letter was printed on The Urban Institute's letterhead and signed by Dr. Carol De Vita, Senior Research Associate at the Urban Institute, and Director of the Nonprofit-Government Relations Study in the Washington, D.C. metropolitan area. This letter announced the survey, highlighted its importance, and asked for respondents' voluntary participation. It also provided respondents with the opportunity to take the survey online by giving them a web link, a username, and a password, as well as a telephone number and an email address to contact if they have any questions about the questionnaire or the study. Advance letters were mailed to all potential respondents on February 12, 2010.

The next step was to mail questionnaires to potential respondents. The survey packet included a cover letter that provided more information about the study, the 12-page questionnaire, and an envelope with pre-paid postage and the return address for respondents to mail-in the completed surveys. Because of the high number of questionnaires to be mailed and processed through the post office, we mailed them in batches of about 100 each starting on February 18, 2010 and ending April 21, 2010.

Eligible non-respondents were sent several reminders about the survey. First, postcard reminders were sent in two batches to a sample of the respondents between March 4th and April 13th, 2010. Second, non-respondents with email addresses were contacted and reminded about the study three times. Third, telephone contacts with non-respondents were initiated on March 31, 2010 and finalized on May 15th, 2010.

The website remained active for respondents throughout the data collection period, which ended on June 14th, 2010. At that time, the online survey was deactivated, and the database was compiled. A copy of the questionnaire, advance letter, and the reminders is included in the

deliverables. Table 2 provides further information about the contact methods and their respective implementation dates.

Table 2: Data Collection Dates

Contact Method	Date Implemented
Advance letter	2/12/2010
Questionnaire	02/18/2010 – 04/21/2010
Reminder Postcards and Letters	03/04/2010 – 04/13/2010
Reminder Email 1	03/10/2010
Reminder Email 2	04/08/2010
Reminder Email 3	04/26/2010
Reminder Phone Contact	03/31/2010 – 05/15/2010

III. Response Rates

The following tables display the response rate categories and calculations for all completed and partially completed questionnaires. There were 571 completed questionnaires, yielding a response rate of 18 percent.

Table 3: Response Rate Category

Interview	Response Category	Number of Respondents
Complete	1.1	565
Partial	1.2	6
Eligible, non-interview

To maximize the number of respondents, we contacted organizations through mail, email, and phone. The following table shows the number of completed questionnaires by contact method. Since organizations were contacted using multiple methods, the last contact method that was used to reach the respondents is where the completed questionnaire will be counted. For example, if an organization received a questionnaire by mail and was later reached by phone, the complete would fall under phone contact since the last contact with the respondent before they completed the survey was by phone. These figures do not exclude nonprofits that were ineligible to complete the survey.

IV. Data Description

1. Weights

Because the sampling strategy over-sampled 501(c)(4) organizations, all analysis of the data must include a weight variable. Two weights were created: one *sample* weight and one *population* weight. Both weights will generate the same percentage estimates. However, the following guidance should be followed when selecting a weight:

ii. Sample weight:

The sample size for the sample weight equals the final survey sample size (n=571) and should be used for most of the analyses because the statistics generated will be based on the correct distribution of the sample by region, size, and type.

iii. Population weight:

The population weight is the sample weight scaled up to match the universe sample size (n=10,581), and can be used for producing population counts (such as, the number of education nonprofits in the Washington, D.C. metro area that responded that they had no political influence).

2. Data Modifications

The following changes and modifications have been made to the dataset. Note that these changes were also made to the preliminary data delivered in March, 2010 (156 observations).

- iv. Washington, D.C. has only a local government and not a state government. We recoded the responses given for “state” to “local” for organizations that are located in Washington, D.C. and indicated that they only served their neighborhoods or the city/county in Q01. The modified questions are Q05, Q11, Q16, Q17, and Q21a.
- v. If the response to a question was missing due to a skip pattern, the missing value was recoded as “Not Applicable.” This was done for Q08a, Q09, Q09a, Q10a_specify, Q21a, Q23a, Q23b, and Q23c. For example, respondents who said “No” or did not answer Q08 received “Not Applicable” values for the follow-up question Q08a.

Nonprofit-Government Relations in the Washington, D.C. Metropolitan Area

The Washington, D.C. metropolitan area has been selected to participate in an international study of how nonprofit organizations relate to and work with government. About 10 countries are participating, and we want our area to be well represented. To do this, we need you to complete this survey. Your answers will help us give a complete and objective picture of the nonprofit sector in our region. We'll also use the information to inform local foundations, policymakers, advocates, and other stakeholders about the sector. The study's sponsor is the University of Tsukuba in Japan. The survey is conducted in collaboration with the Public Policy Institute at Georgetown University.

Your participation is voluntary and all the information you provide will be kept confidential. If you complete and return this questionnaire, your organization will be eligible to win \$200. At the end of the survey, we will randomly select four organizations that completed the survey, and each one will receive a check for \$200.

If you have any questions about the study or the questionnaire, please call us at 202-261-5441 or email us at NonprofitSurvey@urban.org. Thank you for your help and cooperation!

Please answer all questions.

g. Develop community capacity	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Q25. This is a two-part question. First, in your opinion, what kind of influence do the following organizations or groups have on public policy in general? Second, what kind of influence do they specifically have on policies of concern to your organization? For each category, indicate how much influence they have on a scale of 1 to 7. (Where 1 = very little influence and 7 = a lot of influence.)

Example: If you believe that labor unions do not have much influence on public policy in general, but have more influence on your organization's specific concerns, you might mark a "1" under "Influence in general" and a "4" under "Policies of concern to your organization".

<i>Indicate the number that represents how much influence they have under each category.</i>	Influence In general	Policies of concern to your organization
<i>Example: Labor Unions</i>	<i>1</i>	<i>4</i>
a. Agricultural groups		
b. Business/trade associations

We need your help! The Washington, D.C. metropolitan area has been selected to participate in an international study of how nonprofit organizations relate to and work with government. About 10 countries are participating, and we want our area to be well represented. To do this, we need you to complete our survey. Your participation is voluntary and the information you provide is strictly confidential. Please be assured that no individual responses will be identified.

The study has two goals: (1) to provide a complete and objective picture of nonprofit-government relations in our region, and (2) to use the information to inform local foundations, policymakers, advocates, and other stakeholders about the nonprofit sector. This is strictly a nonpartisan research study. The study's sponsor is the University of Tsukuba in Japan.

We are writing in advance because we have found that many people prefer to know that they will be contacted regarding a study. Your organization was selected through a scientific process to ensure a representative sample of nonprofit organizations in the Washington, D.C. metropolitan area. It is important that your organization be represented in this survey, and in fact the success of the study depends on your participation.

We will have both web-based and mail-back options. If you would like to complete the survey on the web, please go to <https://surveys.urban.org/cb/govnonprofit.aspx>.

Your username is: <<USERNAME>> and your access code is: <<PASSWORD>>.

Alternatively, if you would prefer to take the survey by mail, please contact us using the information below, and we will be happy to mail you a paper version of the questionnaire. When the questionnaire arrives, please take a few minutes to complete and return it. The survey should take about thirty minutes to complete.

After you complete and return the survey, your organization will be eligible to win \$200. We will enter the names of all organizations that complete and return the survey into a drawing, and randomly select four organizations. Each of the chosen organizations will be sent a check for \$200 in appreciation for participating in this important study.

If you have any questions, either now or after you complete the questionnaire, we will be glad to answer them. Please call us at 202-261-5441 and ask for the "Nonprofit-Government Study" or email us at NonprofitSurvey@urban.org. Thank you in advance for your help and participation!

Sincerely,

Carol J. De Vita, Ph.D.

Senior Research Associate at the Urban Institute, and

Director of the Nonprofit-Government Relations Study in the Washington, D.C. Metropolitan Area

This survey is conducted in collaboration with the Public Policy Institute at Georgetown University.

Begin:

Hello. This is _____ calling from The Urban Institute regarding the international study of nonprofit organizations. Is your Executive Director available or someone who might be able to answer a few survey questions about your organization?

[Interviewer Note: The goal is to conduct the interview with the Executive Director or another permanent staff person.]

When you get appropriate person on the phone:

Hello. This is _____ calling from The Urban Institute regarding the **international** study of how nonprofits relate to and work with government. You should have received information from The Urban Institute about this study. I am calling today to see if you have any questions about it and to offer you the opportunity to complete the survey over the phone. It is important to the success of the study that we hear from your organization. Is this a good time to complete the survey or would you like me to call back at another time?

If individual agrees to a phone interview:

Your participation is voluntary and all the information you provide will be kept confidential. If I come to any question you would prefer not to answer, just let me know and we can skip over it.

If the respondent is reluctant to take the survey by phone:

You can also take the survey online, if that would be more convenient for you. If you provide me with your email address, I'll send you a link to the website and an access code and password so you can complete the survey on-line.

The address of the web site is:

Your access code is <**read access code**> and your password is: **nonprofit**

[Interviewer Note: Get contact information and immediately follow-up with an email.]

Frequently Asked Questions

Q. My organization does not deal with the government. Would you still want me to complete this study?

A. Yes. We ask a mix of questions about your organization. There are several questions that ask about your organization's relationship with government but if they do not relate, please let me know, and we will skip over them.

Q. How long does this study take?

A. It takes approximately 30 minutes to complete.

Q. We are a homeowner's association. Do you still want us to complete the study?

A. Unfortunately, you are ineligible to participate in this study. We thank you very much for your time and interest in the study.

Q. How did you get my name?

A. Your organization was randomly selected from a database maintained by the Urban Institute about nonprofits that file IRS Form 990.

Q. What is the purpose of the study?

A. The goal is to study how nonprofits relate to and work with government.

Q. Who can I contact to get more information about the survey?

A. You can contact Carol DeVita at cdevita@urban.org or call 202-261-5441.

Q. Who is sponsoring the study?

A. This international study is sponsored by the University of Tsukuba in Japan. It is conducted by the Urban Institute and in collaboration with the Public Policy Institute at Georgetown University.

Q. Can I complete the Survey on the Web?

A. Yes.

The address of the web site is:

<https://surveys.urban.org/cb/govnonprofit.aspx>.

Your access code is **<read access code>** and your password is: **nonprofit**

Q. Who are you? Who is conducting this interview?

A. I am Urban Institute staff-member working on this project.

Q. Is this confidential?

A. Yes. Your name and telephone number will be removed from the data base after the survey is completed. Also, because the Urban Institute conducts many surveys, maintaining confidentiality is extremely important to the success of the Institute. Therefore, we are very careful to protect your privacy.

Q. How will my answers be used and will they be kept confidential?

A. The data collected will be analyzed by the staff of the Urban Institute. The purpose of the study is to develop a clear picture of how the nonprofits work with and relate to government.

I want to assure you that all information that may identify you will be protected during the data collection process and then destroyed.

Your answers will be combined with those of other survey participants so that no one individual's answers can be identified in the results.

Only grouped survey responses will be released in reports. No one individual's answers to the survey can be known. No identifiers will be kept with the final data set.

Q. Who can I contact with questions or how to verify the legitimacy of this study?

A. You can call the study director, Carol De Vita, or email her at cdevita@urban.org.

I also would be glad to give you the telephone number at the Urban Institute, which you can call and ask to speak to my supervisor, Katie Roeger. The number is 202-261-5806. You may also visit the website at www.urban.org.

Q. Who can I contact about my rights?

A. If you have any questions concerning your rights about participating in this project, please call the Urban Institute Institutional Review Board at 202-261-5632, and ask for Everett Madden.

Q. Can I get a copy of the results?

A. Certainly. I can take your name and email address, and we can send you a copy of the results when they are ready. We hope to have the results from the DC study in the fall.

Q. The respondents is registered on the Do Not Call list

A. The “Do Not Call” list applies to sales or telemarketing calls only. We are not selling anything and our sole purpose for calling is to conduct a survey to gather information and opinions for decision-makers. Your opinions are extremely valuable, and we would really appreciate your help with this project.

Q. Do I get anything for completing this study?

In appreciation for your participation, your organization will be eligible to win \$200. We will enter all organizations that complete the survey in a drawing and randomly select four organizations and each of the winning organizations will receive a check for \$200.
