

## List of Tables

1	$R \cdot \Delta\Omega_L$ for CH <sub>4</sub> Experiments . . . . .	50
2	$R \cdot \Delta\Omega_L$ for C <sub>60</sub> Experiments . . . . .	50
3	The Parameters of the Molière Potential Function . . . . .	51
4	The De Broglie Wavelength of the Beam Atoms . . . . .	51
5	Results of the Fitting . . . . .	51
6	Integration of Electron Density Distribution . . . . .	52

## List of Figures

1	Schematics of Collision Experiments . . . . .	53
2	Aim of Study . . . . .	54
3	Colutron Ion Source . . . . .	55
4	Experimental Setup . . . . .	56
5	Supersonic Molecular Beam Source . . . . .	57
6	Effusive Molecular Beam Source . . . . .	58
7	Setting of Threshold . . . . .	59
8	TOF Spectrum of Detector Angle at $\theta_L = 20^\circ$ . . . . .	60
9	TOF Spectrum of Detector Angle at $\theta_L = 50^\circ$ . . . . .	61
10	Results of Kinematical Calculation . . . . .	62
11	CM Angle as a Function of Laboratory Angle . . . . .	63
12	Recoil Energy of a Carbon with Ne at 3.2 keV . . . . .	64
13	Recoil Energy of a Carbon with Ar at 4.2 keV . . . . .	65
14	Recoil Energy of a Carbon with Xe at 9.8 keV . . . . .	66
15	FWHM of The TOF Peaks for $Xe^+$ (9.8 keV) + $C_{60}$ . . . . .	67
16	Double Slit of Detector . . . . .	68
17	Peeping Region of Detector for $CH_4$ Experiments . . . . .	69
18	Peeping Region of Detector for $C_{60}$ Experiments . . . . .	70
19	View of $C_{60}$ Molecule . . . . .	71
20	Molière's Thomas-Fermi Screening Function . . . . .	72
21	Applicable Range of Molière Potential . . . . .	73
22	Distance of Closest Approach . . . . .	74
23	Angular Distribution of Scattered He with C in $CH_4$ Target .	75
24	Angular Distribution of Scattered He with C in $C_{60}$ Target .	76
25	Differential Cross Sections of $CH_4$ Experiments . . . . .	77
26	Differential Cross Sections of $CH_4$ Experiments at Several Energies . . . . .	78
27	Differential Cross Sections of $C_{60}$ Experiments . . . . .	79
28	Differential Cross Sections of $C_{60}$ Experiments at Several Energies . . . . .	80

29	Suppression Rate as a Function of Recoil Energy . . . . .	81
30	TOF Spectra of Measurements and MD Simulations . . . . .	82
31	Results of Molecular Dynamics Simulation . . . . .	83
32	Comparison with TOF Spectra of Ar Incident . . . . .	84
33	Free Parameter Optimization . . . . .	85
34	Results of Free Parameter Fitting . . . . .	86
35	Result of Fitting to Ar Measurements . . . . .	87
36	Results of Fitting to Ne and Xe Measurements . . . . .	88
37	$Z_1$ Dependence of $a_2$ Parameters . . . . .	89
38	$Z_1$ Dependence of $a_3$ Parameters . . . . .	90
39	Potential Curves between Ne and C . . . . .	91
40	Potential Curves between Ar and C . . . . .	92
41	Potential Curves between Xe and C . . . . .	93
42	Potential Scaling . . . . .	94
43	Electron Density Distribution of Reduced Charge $Z_{eff}$ Atom	95
44	The Ratio of the Experimental Electron Density to the Molière:	96
45	Average Electron Velocity in Thomas-Fermi Model . . . . .	97
