

ACKNOWLEDGEMENTS

At first I would like to thank Professor Dr. Yujiro Ogawa, Institute of Geoscience, University of Tsukuba, who guided my research with great enthusiasm. Over the last five years he has shown me all the ins and outs of science in general. I am grateful for his patience and efforts in guiding me to this study.

I would like to thank Professor Dr. Kazuo Saito, Faculty of Science, Yamagata University, generously shared all his knowledge on Ar-Ar geochronology and took great care of me.

Professor Dr. Teruaki Ishii, Ocean Research Institute, University of Tokyo, Professor Dr. Mutsuo Hattori, Japan Marine Science and Technology Center, and Professor Dr. Yujiro Ogawa are thanked for providing samples.

Professor Dr. Takeyoshi Yoshida, Faculty of Science, Tohoku University, Dr. Masanori Kurosawa and Dr. Kosei Komuro, Institute of Geoscience, University of Tsukuba, and Professor Dr. Teruaki Ishii are also appreciated for providing geochemical analysis of XRF, LAM-ICPMS, ICP-MS and EPMA, respectively. They shared many technical discussions and insights of petrological studies.

I also thank Professor Dr. Takashi Miyano, Institute of Geoscience, University of Tsukuba, Dr. Kantaro Fujioka, Japan Marine Science and Technology Center, Dr. Hiroshi Sato, Ocean Research Institute, University of Tokyo, and Dr. Yutaka Takigami, Kanto-Gakuen University, for providing useful informations of petrological studies and dating. Their grateful discussions are valuable for this study.

Dr. Yasushi Harada, Geographical Survey Institute, Dr. Kyoko Okino, Ocean Research Institute, University of Tokyo, and Mr. Hatsuki Fujinami, University of Tsukuba, are also appreciated for providing informations of geographical studies.

Special thanks are due to Dr. Shigeru Takizawa, Institute of Geoscience, University of Tsukuba, Mr. Kiichiro Kawamura, Fukada Geological Institute, Mr. Junji Yamamoto, Earthquake Research Institute, University of Tokyo, Mr. Shunsuke Kawakami, Mr. Yuzuru Yamamoto, Mr. Koichi Okuzawa and Mr. Yasufumi Ohta, University of Tsukuba, for their various discussions.

Thanks are due to Dr. Naohiro Iwata, the late Dr. Kazuya Fukunaga, Mr. Hajimu Tamura, Mr. Takushi Ohmura, Mr. Mutsumu Ishii, Mr. Tokuo Nakagawa, and Miss Maki Shoji, Yamagata University, for their much help in Ar-Ar dating, and for Dr. Hidetsugu Taniguchi, Dr. Satoru Haraguchi, Dr. Dan Curuwitz and Mr. Shiki Machida, Ocean Research Institute, University of Tokyo, and Miss Kaori Fujii, University of Tsukuba for their various discussions and help in petrological analyses.
