**Reconstruction of Paleogeography and Unraveling of Uplift
History in Collisional Zones Using Detrital Heavy Minerals
—Setogawa–Mineoka Belt and Himalaya–Bengal System**

Koichi OKUZAWA

A dissertation submitted to the Doctoral Program
in Geosciences, the University of Tsukuba
in partial fulfillment of the requirements
for the degree of Doctor of Philosophy in Science

January 2004

Contents

Contents	i
Abstract	iv
List of Tables	vii
List of Figures	viii
1. Introduction	1
2. Methods	7
2-1. Modal composition of sandstone	7
2-2. Clast composition of conglomerate	8
2-3. Procedure of chemical analysis of detrital heavy minerals	9
2-4. Chromian spinel	11
2-5. Garnet	12
2-6. Clinopyroxene	14
3. Mineoka-Setogawa area	16
3-1. Historical review	16
3-1-1. Stratigraphy in the Mineoka area	16
3-1-2. Stratigraphy in the Setogawa area	18
3-1-3. Modal compositions of sandstone and conglomerate	21
3-1-4. The Circum-Izu Massif Serpentine Belt	22
3-2. Outline of geology	24
3-2-1. Mineoka area	24
3-2-2. Setogawa area	33
3-3. Description of undivided unit of sedimentary rocks in the Mineoka area	46
3-3-1. Futatsuyama Formation	47
3-3-2. Serpentine sandstone	47
3-3-3. Leucocratic sandstone	51

3-4. Modal composition of sandstone and conglomerate	51
3-4-1. Mineoka area	51
3-4-2. Setogawa area	60
3-5. Detrital chromian spinel	65
3-5-1. Occurrence and petrographic description	65
3-5-2. Chemical compositions	70
3-6. Detrital garnet	84
3-6-1. Occurrence and petrographic description	84
3-6-2. Chemical compositions	85
3-7. Detrital clinopyroxene	97
3-7-1. Occurrence and petrographic description	97
3-7-2. Chemical compositions	98
3-8. Discussion	102
3-8-1. Modal compositions of sandstone	103
3-8-2. Clast composition of conglomerate	105
3-8-3. Detrital chromian spinel	107
3-8-4. Detrital garnet	114
3-8-5. Detrital clinopyroxene	116
3-8-6. Belongings of the Futatsuyama Formation and tectonic blocks in the Mineoka Belt	126
3-8-7. Reconstruction of paleogeography around the Mineoka- Setogawa area	127
4. Himalaya-Bengal area	139
4-1. Historical review	139
4-2. Outline of geology	140
4-3. Description of the piston core samples	144
4-4. Modal composition of sandstone	148
4-5. Detrital chromian spinel	153
4-5-1. Occurrence and petrographic description	153

4-5-2. Chemical compositions	154
4-6. Detrital garnet	166
4-6-1. Occurrence and petrographic description	166
4-6-2. Chemical compositions	167
4-7. Discussion	179
4-7-1. Modal compositions of sandstone	179
4-7-2. Detrital chromian spinel	180
4-7-3. Detrital garnet	185
4-7-4. Uplift history of the Himalayas	186
5. Conclusions	191
Acknowledgements	193
Reference	195
Appendix	212
A. Sampling localities of the Mineoka and Setogawa areas	212
B. Sample description	231
C. Microprobe data	239
