**Detrital Chromian Spinels from the Sa Kaeo-Chanthaburi
Accretionary Complex, Eastern Thailand:
Tectonic Evolution of the Western Margin of Indochina**

Vichai CHUTAKOSITKANON

**A dissertation submitted to the Doctoral Program
in Geoscience, the University of Tsukuba
in partial fulfillment of the requirements
for the degree of Doctor of Philosophy in Science**

January 2004

ABSTRACT	v
LIST OF FIGURES	vii
LIST OF TABLE	xiv
CHAPTER	
1. INTRODUCTION	1
1.1 General statement	1
1.2 The study area	4
1.2.1 Location	4
1.2.2 Accessibility	7
1.3 Objectives	7
1.4 General approach and research methodology	8
2. GEOLOGY OF SA KAEO-CHANTHABURI	12
ACCRETIONARY COMPLEX	
2.1 Previous works – Regional Geology and its tectonic setting	12
2.2 Tectono-stratigraphy of the Sa Kaeo-Chanthaburi Accretionary Complex	19
2.2.1 Khao Prik Unit	25
2.2.2 Khao Hleam Unit	26
2.2.3 Ban Nong Bon Unit	34
2.2.4 Soi Dao Unit	47

CHAPTER	Page
2.2.5 Pong Nam Ron Formation	54
3. PETROGRAPHY OF SANDSTONES	59
3.1 General statement	59
3.2 Petrography of sandstones	60
3.3 Interpreting the provenance of sandstones	62
3.3.1 Sample preparation - Sampling and analytical techniques	64
3.3.2 Results - Modes on detrital framework grains	65
3.4 Characteristics of conglomerate blocks in the Ban Nong Bon unit	69
4. DETRITAL CHROMIAN SPINELS	73
4.1 General statement	73
4.2 Previous works – Significance of chromian spinels	74
4.3 Detrital chromian spinels in the Sa Kaeo-Chanthaburi Accretionary Complex	76
4.3.1 Definition of chromian spinels	76
4.3.2 Accumulation and contribution	77
4.3.2.1 The Pong Nam Ron Formation	79
4.3.2.2 Sandstone blocks in mélange	80
4.3.2.3 Volcaniclastic rocks in mélange	80
4.3.3 Petrography of detrital chromian spinels	81
4.3.4 Geochemical characteristics	82
4.3.4.1 Sample preparation - Sampling and analytical techniques	82
4.3.4.2 Results - Quantitative major element compositions	85

CHAPTER	Page
4.3.4.2.1 The Pong Nam Ron Formation	87
4.3.4.2.2 Sandstone blocks in mélange	89
4.3.4.2.3 Volcaniclastic rocks in mélange	90
4.3.4.2.3.1 The Khao Hleam unit	91
4.3.4.2.3.2 The Soi Dao Unit	92
4.4 Chromian spinels from serpentinites in the Sa Kaeo- Chanthaburi Accretionary Complex	93
4.4.1 The Khao Prik Unit	94
4.4.2 The Khao Hleam Unit	95
4.4.3 The Soi Dao Unit	96
5. TECTONIC SETTING OF SA KAEO-CHANTHABURI ACCRETIONARY COMPLEX – DISCUSSIONS	98
5.1 Mélanges in the Sa Kaeo-Chanthaburi Accretionary Complex	98
5.2 Sedimentological significance of the Pong Nam Ron Formation	101
5.3 Tectonic setting inferred by detrital chromian spinels	103
5.4 Tectonic history of the western margin of Indochina	112
5.4.1 Saraburi, central Thailand	112
5.4.2 Phetchabun, north-central Thailand	114
5.4.3 Sa Kaeo-Chanthaburi, eastern Thailand	117
6. CONCLUSIONS	120
ACKNOWLEDGEMENTS	124
REFERENCES	126
