

## Acknowledgments

I wish to express my deepest appreciation to Professor Ken-ichi Okamoto for his expert guidance and constant warm encouragement during the course of this work. Under his guidance, I could learn much about the coordination chemistry, and the other related fields.

I would like to express my cordial gratitude to Professor Takumi Konno (Gunma University) for his much precious advice. I am deeply obliged to Dr. Kiyoshi Fujisawa for his helpful discussion. I am very grateful to Dr. Narumi Sakagami (Ritsumeikan University) for her warm support. I would like to thank Dr. Yasunori Yamada for his valuable comments. I acknowledge to Professor Kan Kanamori (Toyama University) for his kindly measurements of Raman spectra.

I also wish to express my grateful thanks to all my collaborators for their warm encouragement and friendship throughout this work.

Finally, I am particularly indebted to my parents, and this thesis is devoted to them.

January 1999,

Yoshitaro Miyashita
