

## TABLE OF CONTENTS

<b>Dedication</b>	II
<b>Acknowledgement</b>	III
<b>Abstract</b>	V
<b>CHAPTER 1</b>	
<b>INTRODUCTION</b>	1
1.1. Target Costing versus Traditional Cost Management	2
1.2. Comparison of Target Costing and Cost-plus Approaches	4
1.3. Target Costing in a Confrontational Environment	4
1.4. The Origins of Target Costing	8
1.5. An Overview of the Target Costing Approach	10
1.6. Previous Literature on Target Costing	14
1.7. Behavioral Issues in Target Costing	15
1.7.1. Behavioral Issues in Target Cost Determination Process	15
1.7.2. Behavioral Issues in Target Cost Allocation Process	17
1.8. Motivation of the Study	21
1.9. Structure of the Thesis	22
<b>CHAPTER 2</b>	
<b>RESEARCH DESIGN AND METHODOLOGY</b>	25
2.1. Sample	25
2.2. Variables and their Categories used in Survey Research	29
2.3. Measurement Framework for Survey Research	29
2.4. Research Design of the Experiment relating to the Effect of Tightness and Target Information Types on Cost-reduction Performance	31
2.5. Research Design of the Experiment relating to the Effect of Participation and Performance Evaluation Factors on Target Costing Performance	32
2.6. Statistical Methods Applied	33
2.6.1. In case of Laboratory Experiments	33
2.6.2. In case of Questionnaire Survey	33
2.6.2.1. Logistic regression model	35
2.6.2.2. Comparative advantage of logistic regression	38
2.6.2.3. When to choose logistic regression	39
2.6.2.4. Multicategory logit models	39
2.6.2.5. Cumulative logit models for ordinal responses	41
2.6.2.6. Proportional-odds model	42

## **CHAPTER 3**

### **MOTIVATIONAL IMPACTS OF THE TYPE AND TIGHTNESS OF TARGET COST INFORMATION: A LABORATORY EXPERIMENT** 44

3.1.	Motivational Aspects of Target Costing	45
3.2.	Research Issues	46
3.2.1.	Effect of Target Information Types on Cost-reduction Performance	46
3.2.2.	Effect of Target Cost Tightness on Cost-reduction Performance	47
3.3.	Experimental Design	47
3.3.1.	Target-Information Types	48
3.3.2.	Information Tightness	48
3.3.3.	Real World Practice versus the Experiment	49
3.3.4.	Research Methodology	51
3.3.5.	Experimental Procedures	53
3.3.6.	Variables	54
3.3.6.1.	Types of target information	54
3.3.6.2.	Levels of tightness	55
3.3.7.	Statistical Method Applied	55
3.4.	Formulation of Hypotheses	56
3.4.1.	Goal Specificity	56
3.4.2.	Goal Difficulty	57
3.4.3.	Goal Specificity and Difficulty	58
3.5.	Tests of the Hypotheses	59
3.6.	Conclusion	64

## **CHAPTER 4**

### **EFFECTS OF THE TIGHTNESS OF TARGET PROFIT & COST ON TARGET COST ACHIEVEMENT: AN EMPIRICAL RESEARCH** 66

4.1.	Different Methods of Target Profit and Target Cost	70
4.1.1.	Target Profit Methods	71
4.1.2.	Target Cost Methods	73
4.2.	Data and Statistical Framework	77
4.2.1.	Survey Administration	77
4.2.2.	Variable	77
4.2.3.	Statistical Model	80
4.3.	Research Focus	82
4.4.	Hypotheses Development	83

4.5.	Analysis and Interpretation	86
4.5.1.	Criteria for Selecting the Model	86
4.5.2.	Results	87
4.5.3.	Analysis of the Results	90
4.6.	Conclusion	92
<b>CHAPTER 5</b>		
<b>TARGET COSTING PERFORMANCE BASED ON ALTERNATIVE PARTICIPATION AND EVALUATION METHODS: A LABORATORY EXPERIMENT</b>		95
5.1.	Purpose of the Study	95
5.2.	Target Costing and the Research Interests	96
5.2.1.	Meaning and Application of Target Costing	96
5.2.2.	The Research Interests in Target Costing	98
5.2.2.1.	Effect of participation in target cost setting on cost-reduction performance	98
5.2.2.2.	Effect of performance-evaluation method on cost-reduction performance	99
5.2.3.	Previous Studies on the Behavioral Approach to Cost Accounting	100
5.3.	Experimental Design and Procedures	102
5.3.1.	Research Design	102
5.3.1.1.	Controllable Information	103
5.3.1.2.	Participation	104
5.3.2.	Research Methodology	104
5.3.2.1.	Experimental environment and work procedure	104
5.3.2.2.	Target cost-setting method	107
5.3.2.3.	Performance-evaluation method	107
5.3.3.	Comparison between Real World and the Experiment	108
5.3.4.	The job of Coordinator	111
5.3.5.	Total Target to be Achieved by Each Team	116
5.4.	Hypotheses	116
5.4.1.	Cognitive Dissonance Theory	116
5.4.2.	Application of Cognitive Dissonance Theory to the Present Experiment	117
5.4.3.	Expectancy Theory Approach	120
5.5.	Experimental Data	125
5.5.1.	Actual Performance of Each Member in Different Teams	125
5.5.2.	Changes in Average Performance in Team A	125

5.5.3.	Changes in Average Performance in Team B	126
5.5.4.	Comparison of Average Grade of Each Team at Each Trial	126
5.6.	Analysis and Interpretation of Experimental Results	127
5.7.	Conclusion	138
<b>CHAPTER 6</b>		
<b>EFFECTS OF BEHAVIORAL FACTORS IN TARGET COST ALLOCATION ON TARGET COST ACHIEVEMENT: A SURVEY RESEARCH</b>		142
6.1.	Research Method	143
6.2.	Previous Literature and Theoretical Development	145
6.3.	Results and Discussion	152
6.3.1.	Pairwise Relationship	152
6.3.2.	Combination Effects of Participation and Performance Evaluation Factors	153
6.4.	Conclusion	159
<b>CHAPTER 7</b>		
<b>EFFECTS OF TARGET COST DETERMINATION AND BEHAVIORAL FACTORS IN ITS ALLOCATION ON TARGET COST ACHIEVEMENT: A SURVEY RESEARCH</b>		161
7.1.	Behavioral Factors in Target Cost Determination and Allocation Processes	163
7.1.1.	Effects of Target Cost Determination Methods on Cost-reduction Performance	163
7.1.2.	Effects of Target Cost Allocation on Cost-reduction Performance	166
7.2.	Results and Discussion	169
7.2.1.	Combination Effects of the Factors in Target Cost Determination and Allocation Processes	169
7.3.	Conclusion	173
<b>CHAPTER 8</b>		
<b>GENERAL CONCLUSIONS</b>		174
<b>Appendix to Chapter 2</b>		
Appendix-2-A: Questionnaire survey		178
Appendix-2-B: List of the companies responded		191
<b>Appendix to Chapter 3</b>		
Sample Questions given to the students		192

<b>Appendix to Chapter 4</b>	
Appendix 4-A: Questions used in this study	193
Appendix 4-B: Data showing the number of companies using each target profit and cost method at each level of target cost achievement	194
Appendix 4-C: Statistical issues	195
<b>Appendix to Chapter 5</b>	
Appendix 5-A: Representative questions given to the students	199
Appendix 5-B: Actual performance of each member in different teams	201
<b>References</b>	204

## LIST OF THE TABLES

Table 2-1. Industry classification for 146 organization providing survey data in November, 1996	26
Table 2-2. Cost-reduction process in setting product's target cost	32
Table 2-3. Decision-making process in setting target cost for parts	32
Table 3-1. Cost-reduction process in setting product target cost	48
Table 3-2. Actual performance ratio of all subjects	60
Table 3-3. Analysis of variance of the actual performance ratio of all subjects	60
Table 3-4. Average actual performance ratio of different groups	61
Table 3-5. Actual performance ratio of high-acceptance group	62
Table 3-6. Actual performance ratio of low-acceptance group	62
Table 3-7. Analysis of variance of high-acceptance group	62
Table 3-8. Analysis of variance of low-acceptance group	62
Table 4-1. List of the variables and their categories	77
Table 4-2. Degrees of tightness of different combinations of target profit and cost methods	80
Table 4-3. Estimates for the parameters in showing the effects of <i>TC &amp; TP1</i> on <i>TCAL</i>	87
Table 4-4. Fit information of the models showing the effects of <i>TC &amp; TP1</i> on <i>TCAL</i>	87
Table 4-5. Estimates for the parameters in showing the effects of <i>TC &amp; TP2</i> on <i>TCAL</i>	88
Table 4-6. Fit information of the models showing the effects of <i>TC &amp; TP2</i> on <i>TCAL</i>	88
Table 4-7. Estimates for the parameters in showing the effects of <i>TC &amp; TP3</i> on <i>TCAL</i>	89
Table 4-8. Fit information of the models showing the effects of <i>TC &amp; TP3</i> on <i>TCAL</i>	89
Table 5-1. Decision making process in setting target cost for parts	103
Table 5-2. Consonance and dissonance	118
Table 5-3. ANOVA applied to the actual number of correct answers in Team A	127
Table 5-4. ANOVA applied to the actual number of correct answers in Team B	127
Table 5-5. Average performance of Teams A and B	129
Table 5-6. Tukey's multiple comparison method	129
Table 5-7. Average of supportive and nonsupportive groups	130
Table 5-8. Average of nonparticipative and participative groups	131
Table 5-9. Average of controllable and uncontrollable groups	132
Table 5-10. Different levels of significance	133
Table 5-11. Learning effect as shown by average performance	136
Table 5-12. Cost reduction rate (CRR) of Teams A and B	136
Table 6-1. Consonance and dissonance when <i>PAR</i> is categorized into three levels	149
Table 6.2. Consonance and dissonance when <i>PAR</i> is categorized into two levels	149

Table 6-3. Single effects of <i>PAR</i> and <i>PE</i> on <i>TCAL</i> as explained in hypotheses 6-1 and 6-2	152
Table 6-4. Interaction effects of <i>PAR</i> (three categories) and <i>PE</i> on <i>TCAL</i>	154
Table 6-5. Interaction effects of <i>PAR</i> (two categories) and <i>PE</i> on <i>TCAL</i>	154
Table 7-1. Fit information of the models showing the effects of <i>TC</i> , <i>PAR</i> & <i>PE</i> on <i>TCAL</i>	170

## LIST OF THE FIGURES

Figure 1-1. Sequence of price and cost determination	3
Figure 1-2. The survival zone	6
Figure 1-3. Life-cycle costs and cost commitment	8
Figure 1-4. Steps in the target costing process	12
Figure 1-5. The behavioral factors in target cost and determination and allocation processes	20
Figure 1-6. Overall structure of the thesis	24
Figure 2-1. Process of target costing system	28
Figure 3-1. Effects of target information type and tightness on the actual performance ratio of the high-acceptance group	63
Figure 3-2. Effects of target information type and tightness on the actual performance ratio of the low-acceptance group	64
Figure 4-1(a). Relationship between target profit and target cost	68
Figure 4-1(b). Selection process of target cost	69
Figure 4-2. Determination of target cost using sales price-based method	74
Figure 4-3. Determination of target cost using estimated cost-based method	75
Figure 4-4. Hypothetical relationships in three profit situations	86
Figure 5-1. Design process from the perspective of target costing	97
Figure 5-2. Expectancy model	120
Figure 5-3. Average performance of Team A in four trials	125
Figure 5-4. Changes in average performance per trial in Team A	125
Figure 5-5. Average performance of Team B in four trials	126
Figure 5-6. Changes in average performance per trial in Team B	126
Figure 6-1. Individual and interaction effects of the variables in target cost allocation process	156
Figure 7-1. Effects behavioral factors in target cost determination and allocation on target cost achievement	172
