

Acknowledgments

First of all, I owe heartfelt thanks to my advisor, Professor Yoshihiko Ebihara, who has provided kind and heartfelt support to my study, guided my research, and also reviewed the draft versions of this thesis.

I would like to express special gratitude to Dr. Shigetomo Kimura who had many useful conversations with me, provided many guidance and encouragement.

I also express sincere thanks to Professor Hisao Kameda, Professor Seiichi Nishihara, Professor Nobuo Ohbo and Professor Yoshinori Yamaguchi of the Institute of Information Sciences and Electronics at the University of Tsukuba, for their valuable comments and discussions.

Many thanks go to all my colleagues and researchers in Computer Networks Laboratory at the University of Tsukuba for their helpful inspiration and hospitality.

At last, I want to thank my wife and my daughter for their patience and continuous support to overcome the difficulties of these years.
